Legal Status: Dual French & Moroccan Citizen (*EU/EFTA Free Movement - No Work-Visa Sponsorship Needed in Switzerland*)

SUMMARY

Final-year Computer Science student (AI & Mechatronics) with international, hands-on experience in prototyping robots. Led a 22-person robotics team into prestigious local and international championships. Seeking a robotics engineering internship in Switzerland, available January 2027.

EXPERIENCE

IT and AI Consultant

Stallergenes Greer

Summer 2025 – Present

France / Remote

- Built an AI automation tool to scrape, analyze, and process pharmaceutical manufacturing data. Currently working on a smart KPI dashboard for anomaly-detection and decision-making.

Undergraduate Intern

Field & Underwater Robotics Lab @ KNU

Oct 2024 – Dec 2024

South Korea

- Tested and iterated on mobile field robots (2D/3D LiDAR), implementing and debugging SLAM algorithms in outdoor environments. Managed hardware-in-the-loop testing, sensor integration, and real-time Linux-based (Ubuntu) data capture.

Head of AUI Robotics Team

Al Akhawayn University

Sep 2022 – Jun 2024

Morocco

- Led a 22-student, multinational team in developing competitive robots, representing Morocco in the USA, Germany, and Croatia. Managed lab operations, component inventory, and a ~\$10,000 budget for the AUROBAT national robotics contest (+100 participants).

R&D Intern

Capgemini

Nov 2023 – Jan 2024

Hybrid

- Prototyped a smart agricultural hydroponic station using IoT sensors.

Software Developer

Deviteam

Feb 2023 – Jun 2023

Part-time

- Developed an order-tracking system for campus restaurants serving 5,000+ students. Helped organize a Huawei-sponsored hackathon with 30+ teams.

Educational Robotics Instructor

ActiveLabs & Local Schools

Seasonal, 2019 – 2024

Morocco

- Taught robotics workshops (Python/Scratch, electronics, 3D printing) to K-12 students across multiple schools.

EDUCATION

Bachelor of Science in Computer Science (AI & Mechatronics Specialization) Sep 2021 – Dec 2026

Al-Akhawayn University

Morocco

- Excellence Scholarship Award Recipient

International Exchange Semester

Kyungpook National University

Sep 2024 – Dec 2024

South Korea

- Coursework: Computer Vision, Machine Learning, Cloud Computing

TECHNICAL SKILLS

Software & AI: Python, C/C++, Linux, ROS2, Gazebo, SLAM, OpenCV, Deep Learning, PyTorch, Java, Streamlit, Git, Isaac Sim, Unity, WebXR, Javascript.

Hardware & Embedded: Raspberry Pi, Arduino, VEX V5, ESP32, EV3, Microcontrollers, Soldering, Circuit Assembly.

CAD & Fabrication: OnShape, Fusion 360, SolidWorks, Rapid Prototyping, 3D Printing, Laser Cutting, CNC.

Languages: English (Fluent), French (Native), Arabic (Native).

HONORS, AWARDS

- **Global & National Robotics & Hackathons:** 3x National VEX Robotics Champion (2022, 2023, 2024); 2x National WRO Champion (2019, 2022); 5th Best FLL Innovation Project Worldwide (2021); 1st Place in 2 national hackathons (IEEE WIE 2024 & neoHack 2022).
